1.

The runway at Parchim airfield was 10 meters longer than indicated on construction drawings. From the fact that the runway was to be surveyed in squares of 10 x 10 meters each and from plans for large-scale concreting work, source believed that the surface of the runway which was 20 cm thick, was to be reinforced.

25X1

2. Between 20 and 27 September, no aircraft and no air activity were observed.

25X1 1. Comment. The same source previously reported that the runway at the field was 2,251 meters long.
